FIRSTMARK
EARLY STAGE VENTURE CAPITAL

Number of data tools and technologies

- In 2012, there were about **139** apps/tools/platforms relevant to data.
- In 2023, there were about **1416**.
- By 2024, this number increased to **2000+**.

Technologies and methods that support data-driven decision-making

- Technology that supports data-intensive analytics: artificial intelligence, including machine learning
- Technology that collects data and actions insights from analytics: smart devices and devices connected through the Internet of Things (IoT)
- Technology that creates transparency and trust in data records: distributed ledger technology, including blockchain

Platform firms in low and middle-income countries

a. Number of platform firms and platform firms weighted by GDP per capita

b. Distribution of platform firms, by region and number of employees

Domestic vs Foreign-based firms

Users spend more time on Facebook, Google, and YouTube

a. Share of countries where Facebook, Google, and YouTube are in the top 10 visited websites, by country income group

b. Daily time spent on website (global average): Facebook, Google, and YouTube versus other top 10 visited websites

Internet traffic in low and middle income countries

Data lifecycle
